

Management of Neuromuscular Blockade in Surgery: Anesthesia-Surgery Collaboration

Presented by:

Professor Philippe Dubois, MD

Anesthesiology Department and Acute Pain Service

CHU UCL Mont-Godinne
Dinant, Belgium

Dr. Olivier Donnez, MD

Head of Department of Gynecology and In Vitro Fertilization

CHU UCL Mont-Godinne
Dinant, Belgium

8 May 2013

Webcast: 19:30 – 20:30 (CEST)

Register at: <http://anes-symposia2.2013.msd.com/>

Agenda

19:30 (CEST) **Welcome and Introductions**

Prof. Philippe Dubois, MD

19:35 (CEST) **Challenges in the Laparoscopic Surgical Field**

Dr. Olivier Donnez, MD

19:50 (CEST) **Real World Evidence of Deep Muscle Relaxation and Surgical Exposure**

Prof. Philippe Dubois, MD

20:05 (CEST) **Review Strategies in Providing Muscle Relaxation and Managing Neuromuscular Blockade**

Prof. Philippe Dubois, MD

20:20 (CEST) **Questions and Answers and Closing Remarks**

Faculty

Why Attend?

Through this webcast, you will:

1. Understand the challenges to the anesthetist in providing deep/sustained muscle relaxation
2. Experience real world evidence of how deep muscle relaxation facilitates surgical exposure
3. Understand strategies in providing muscle relaxation and managing neuromuscular blockade
